**Elements is not simply a new colour chart but a carefully considered map that redesigns the geography of the colour and material combinations featured in the Tecno catalogue. A coordinated and balanced systems of colours, materials and finishes for shaping the identity of contemporary interior design. We have added new materials and updated existing ones, reorganising them based on simpler criteria that reflect new approaches to furnishing, to create spaces that are more fluid, flexible, natural, sustainable and customised.**

Elements non è semplicemente una nuova cartella colori ma piuttosto una mappa ragionata che ridisegna la geografia degli abbinamenti cromatici e materici presenti nel catalogo Tecno. Un sistema coordinato e bilanciato di colori, materiali e finiture per progettare l'identità dei nuovi spazi contemporanei. Abbiamo aggiunto delle novità e ripensato l'esistente, riordinandolo secondo criteri più semplici e aderenti alle nuove modalità di progettazione, per creare ambienti fluidi, trasformabili, naturali, sostenibili e personalizzati.

## Innovation Innovazione

**We have selected top quality, visually striking materials which guarantee even better technical performance: resistance to fire, water and wear. Sound absorption capacity, ease of cleaning and anti-bacterial treatments. All characteristics that allow beauty to remain unchanged for an extended duration.**

Abbiamo selezionato materiali di alta qualità e di grande impatto estetico, che garantiscono prestazioni tecniche ancora più elevate: resistenza al fuoco, all'acqua, all'usura, capacità fonoassorbenti, facilità di pulizia e trattamenti anti batterici. Tutte caratteristiche che permettono alla bellezza di durare a lungo, inalterata, nel tempo.

## Sustainability Sostenibilità

**Recycled or recyclable natural fibres.**  
**A shorter supply chain, which reduces the environmental impact of production and shipment. And, last but not least, discreet colours that can be easily mixed and matched to create harmonious combinations that never aging despite ever-changing trends, but that manage to express an enduring, independent style and personality. This is another element of sustainability.**

Fibre naturali, riciclate o riciclabili. Una filiera più corta, che riduce l'impatto ambientale relativamente alla produzione e alla spedizione. E, non ultimo, colori a basso impatto visivo e coordinabili tra loro, per creare accostamenti armonici che non invecchino con il susseguirsi delle tendenze ma riescano a esprimere uno stile e una personalità durevoli e indipendenti. Anche questa è sostenibilità.

**Regenerated leathers**  
 Pelli rigenerate e riciclate

**Black E-leather**

## Personality Personalità

**Unique, identifying, exclusive choices. Partly due to our history (the brand's hallmark "Tecno-colours", now revisited and presented in new finishes), partly due to the decision to collaborate with a select number of the finest Italian manufacturing companies to create products of outstanding quality, recognised the world over, which inject personality and character into any space.**

Scelte uniche, identitarie, esclusive. In parte dovute alla nostra storia (i famosi "colori-Tecno" ormai simbolo del marchio, ora rivisitati e presenti in nuove finiture), in parte alla scelta di collaborare con alcune eccellenze del Made in Italy per creare prodotti di alta qualità, riconoscibili in tutto il mondo, capaci di donare personalità e carattere a ogni tipo di spazio.

## Economy Economia

**It would have been easy to choose the best of our more expensive proposals. We decided instead to guarantee excellent performance at competitive prices. We succeeded thanks to extensive study and research, giving preference to suppliers as local as possible and keeping transport and warehousing costs down. A shorter, optimised supply chain in order to offer Tecno quality at affordable prices.**

Sarebbe stato facile scegliere il meglio fra le proposte più costose. Abbiamo preferito garantire delle ottime prestazioni a prezzi concorrenziali. Ci siamo riusciti con un lungo lavoro di ricerca, privilegiando fornitori il più possibile vicini e contenendo i costi di trasporto e stoccaggio. Una filiera più corta e ottimizzata per poter offrire la qualità Tecno a un prezzo accessibile.

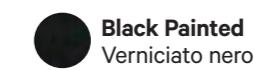

**Light wool fabrics**  
Tessuti in lana leggera

**Acoustic fabrics**  
Tessuti acustici

**Matt painted**

**A flexible and dynamic system that each architect or interior designer can use with maximum creative freedom. This is precisely why we present materials by their values and their characteristics, to accompany you in the choice. We are certain you will find what is right for you.**

Un sistema flessibile e dinamico che ciascun architetto o interior designer potrà utilizzare con la massima libertà creativa. Proprio per questo vi presentiamo i materiali per i loro valori e le loro caratteristiche, per accompagnarvi nella scelta. Siamo certi troverete quello che fa per voi.

**To drive into all the more technical aspects and value implications of the new system, Tecno provides training sessions.**

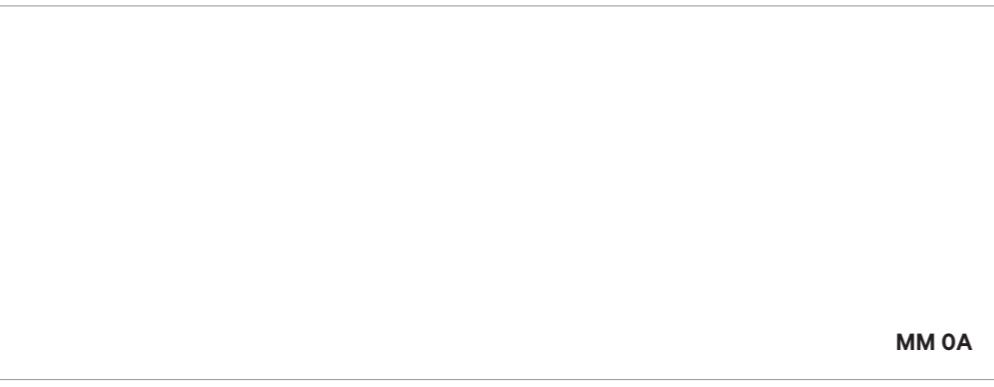

Per approfondire tutti gli aspetti più tecnici e le implicazioni valoriali del nuovo sistema, Tecno mette a disposizione dei momenti formativi.

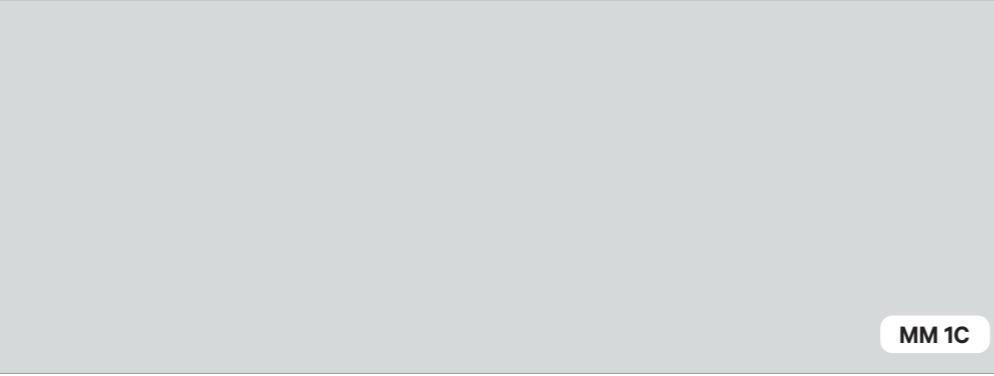

## Melamines Melaminici

**The melamine finishes are fire resistant and with a low environmental impact, in accordance with the latest CARB TSCA regulations.**

Le finiture melaminiche sono resistenti al fuoco e a basso impatto ambientale, secondo le ultime normative CARB TSCA.

### Marbles Marmi

**Raw materials of great beauty, marbles and stones offer the opportunity to invest on an aesthetic that has in classicity its greatest value. The natural unevenness of conformation and coloration creates real natural landscapes for fascinating artistic effects with an aura of eternity and authenticity.**

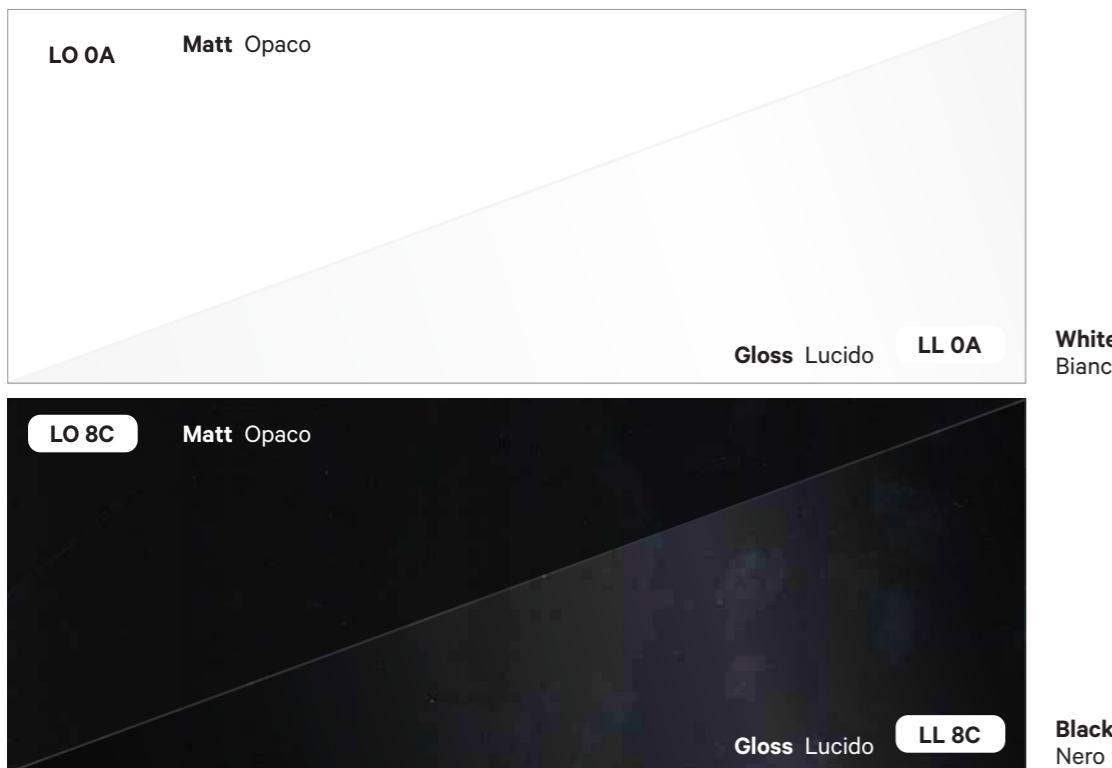

Materie prime di grande bellezza, marmi e pietre offrono la possibilità di investire su un'estetica che ha nella classicità il suo più grande valore. La naturale disomogeneità di conformazione e colorazione crea dei veri e propri paesaggi naturali per affascinanti effetti artistici con un'aurea di eternità e autenticità.

## Lacquered Laccati

The new water-based lacquered items are the most eco-friendly and innovative choice for harmonious and reassuring settings. Glossy or matte, lacquered are luxury, refined and incredibly durable over time, created by the seven coats of lacquer applied onto a layer of wood veneer for a unique grip.

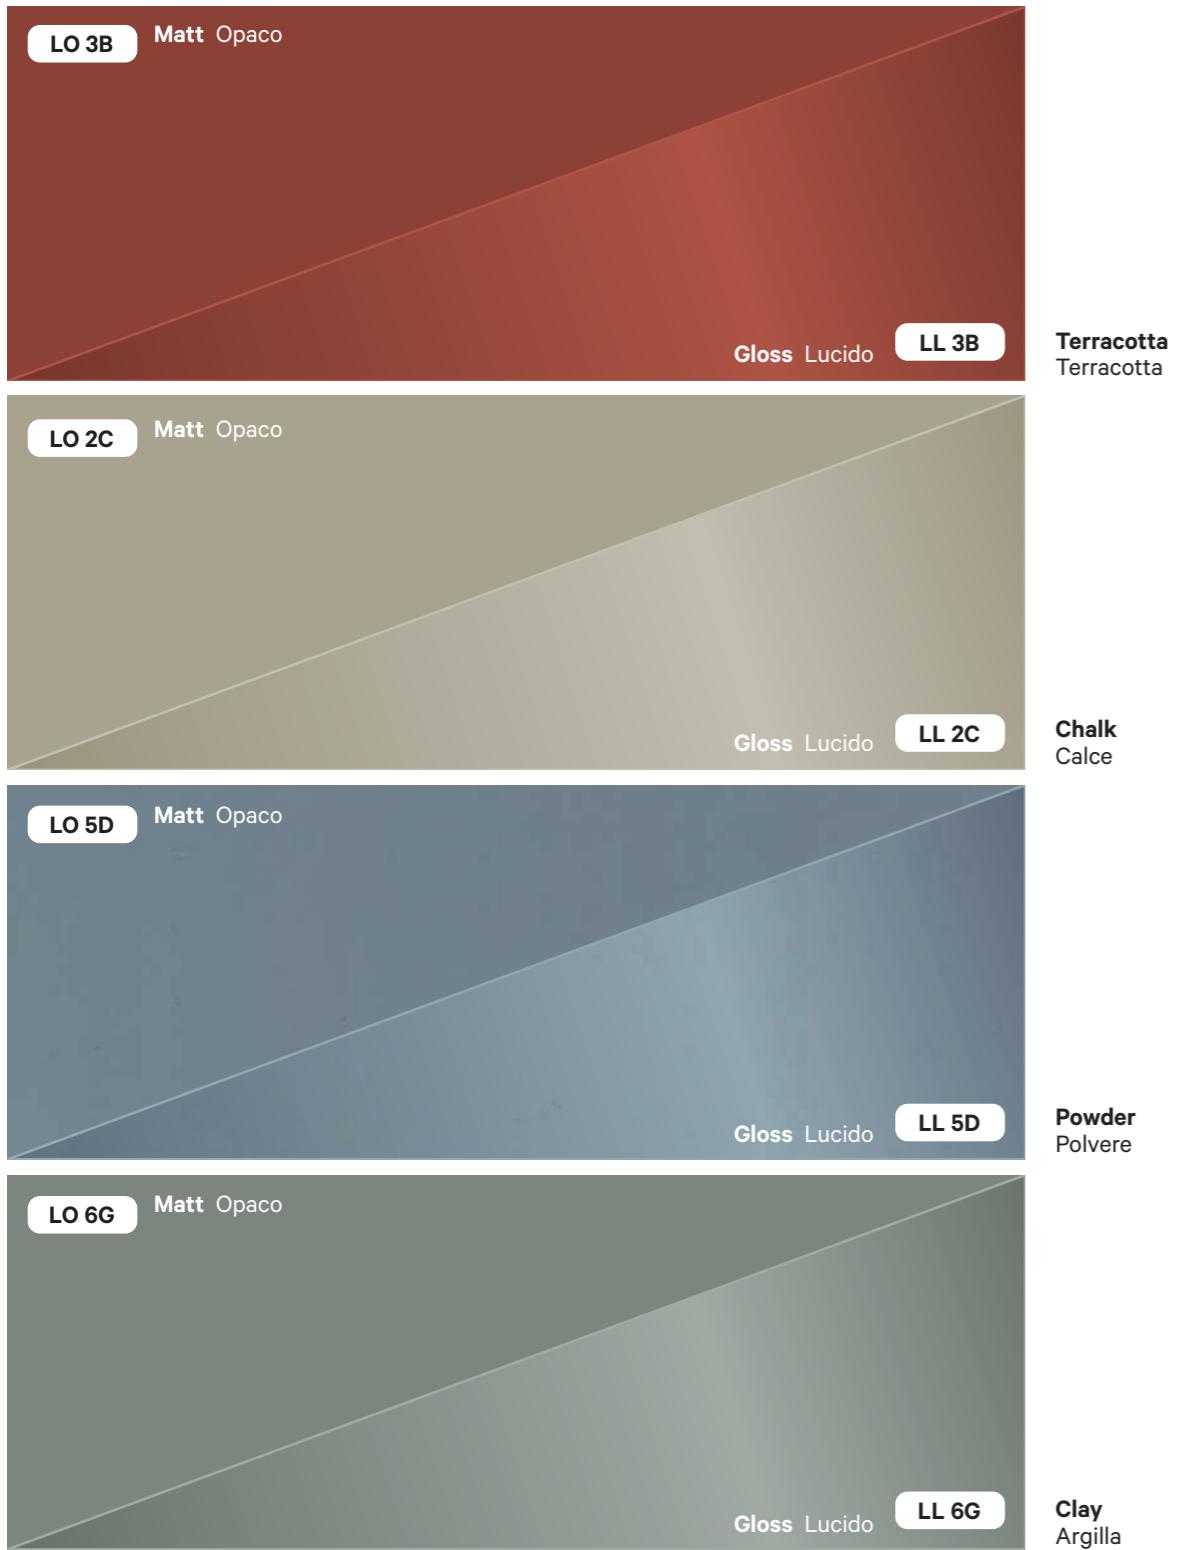

I nuovi laccati ad acqua sono la scelta più ecologica e innovativa per ambienti armoniosi e rasserenanti. I lucidi e opachi, sono lussuosi, raffinati e incredibilmente resistenti nel tempo, grazie alle sette mani di lacca stese su uno strato di impiallacciato di legno che migliora il grip.

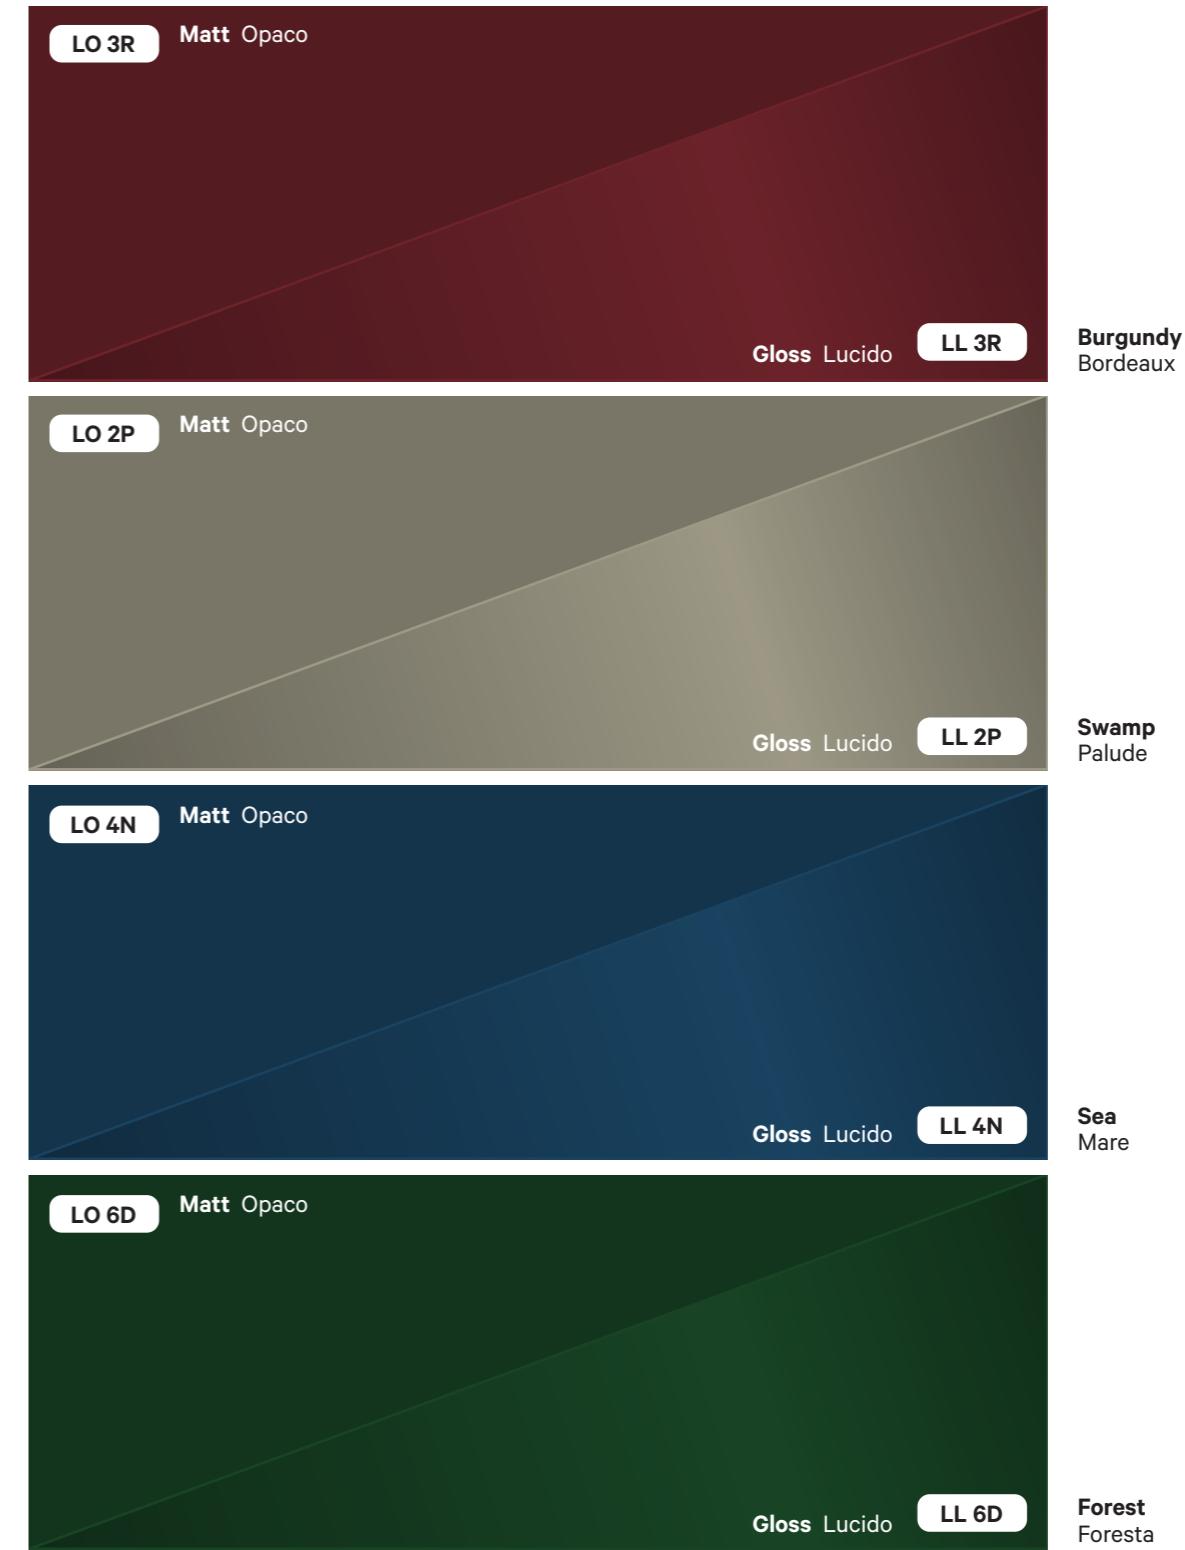

Matt and gloss lacquered Laccati opachi e lucidi

Matt and gloss lacquered Tecno colors Laccati opachi e lucidi Tecno

**Matt and gloss lacquered neutral colors** Laccati opachi e lucidi neutri

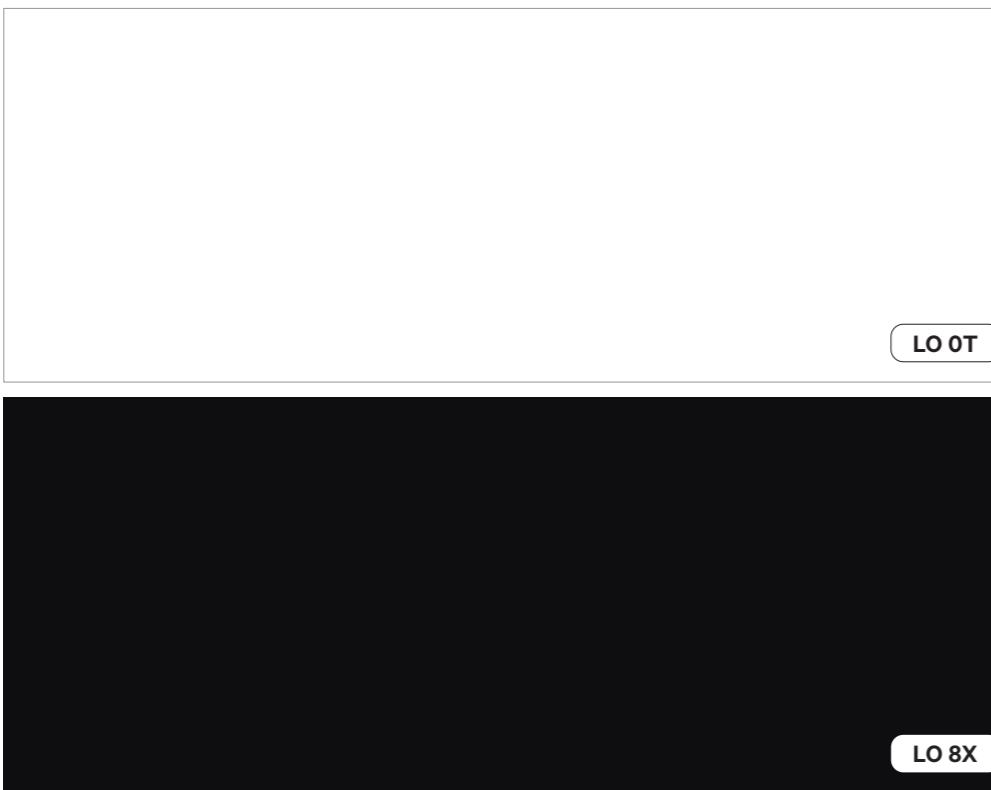

**Matt and gloss lacquered dark Colors** Laccati opachi e lucidi scuri

## Textured lacquered Laccati texturizzati

**Textured lacquered are extremely resistant to wear over time,  
being the right choice for higher performance design needs.**

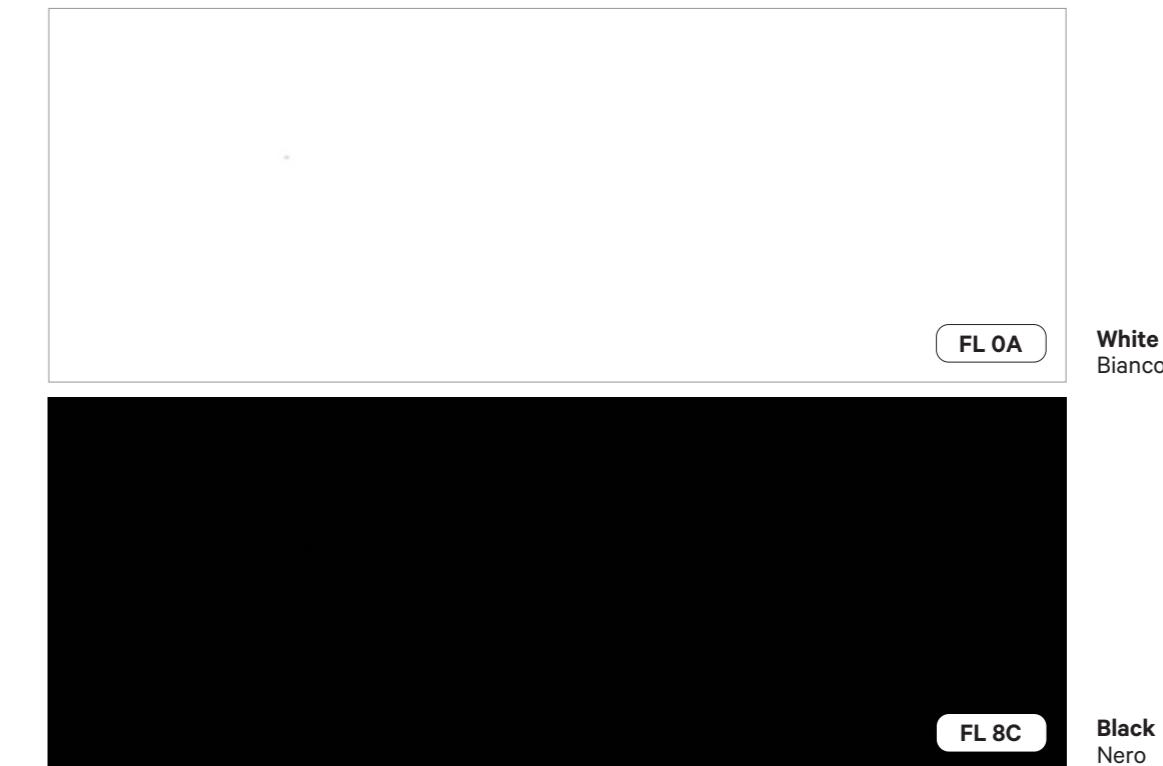

I laccati texturizzati hanno un'altissima resistenza all'usura del tempo  
e sono la scelta giusta per necessità progettuali più performanti.

## Solid laminate Laminato FS

**The solid laminate finishes are high in resistance, rigidity and quality.  
The surface, bonded to the internal panel, guarantees long lasting durability.**

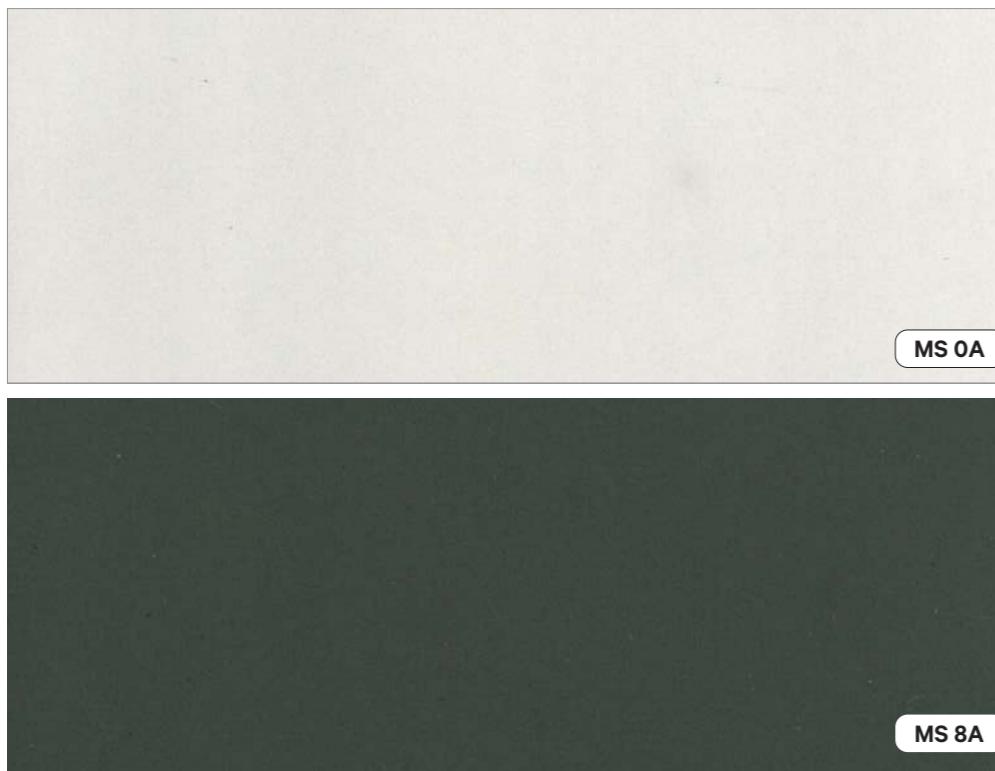

Le finiture in laminato FS sono di altissima resistenza, rigidità e qualità.  
La superficie, accoppiata con il pannello interno, garantisce la lunga durata.

## Methacrylates Metacrilati

**Methacrylate panels thanks to the satin finish on both sides divide and create privacy areas, without compromising the passage of light.**

I pannelli in metacrilato grazie alla finitura satinata su entrambi i lati dividono e creano zone di privacy, senza rinunciare al passaggio della luce.

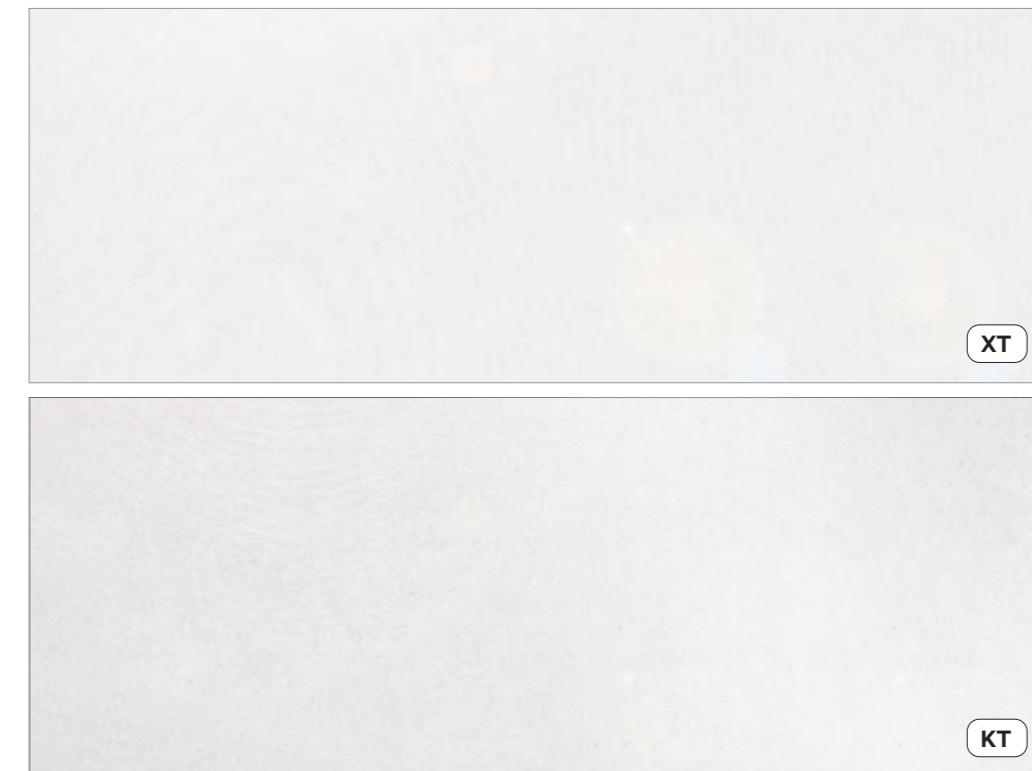

White  
Bianco

Black  
Nero

## Glazing Vetri

**A very ductile material, glass allows to play with transparencies, satin-finishes and colors, in classic or contemporary combinations to achieve a great visual lightness effect. Extra-clear back-painted glass creates a vivid color block effect enhanced by the natural transparency, shine and brilliance of the glass. Back-painted on one side and satin-finished on the other, the effect mutes the full neutral color for a matte and soft-touch effect, being luxury, refined and finely crafted as result.**

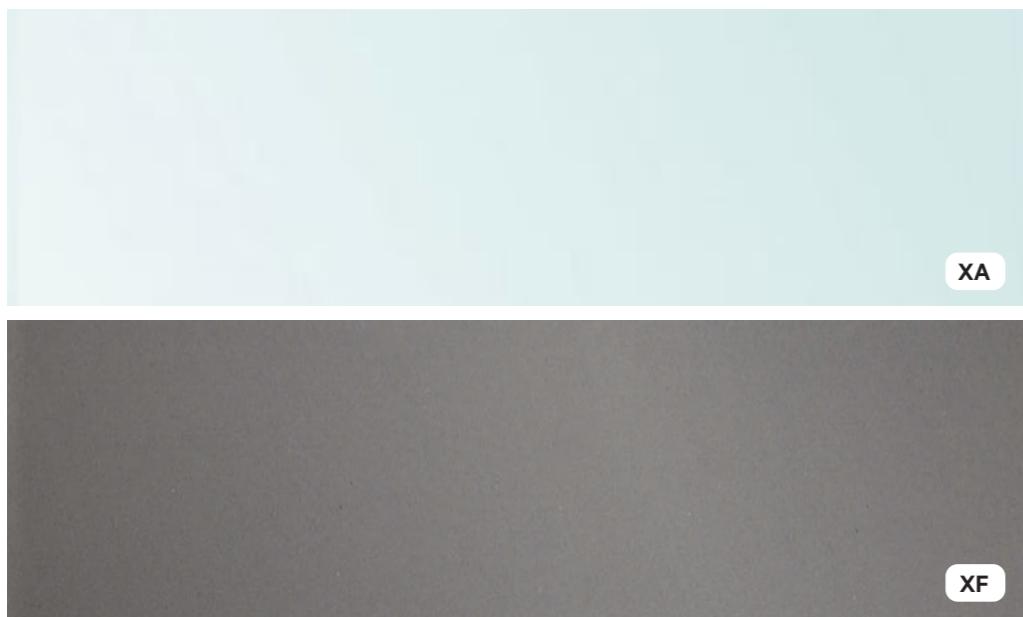

Materiale molto duttile, il vetro permette di giocare con le trasparenze, le satinature e le cromie, in abbinamenti classici o contemporanei per ottenere effetti di grande leggerezza visiva. I vetri retroverniciati extra chiari, creano un blocco di colore vivido esaltato dalla naturale trasparenza, lucentezza e brillantezza dei vetri. I retroverniciati su un lato e satinati sull'altro lato, per un effetto che smorza la profondità del colore neutro in favore di una resa opaca e soft-touch, il risultato è lussuoso, raffinato e finemente lavorato.

**The Tecno system includes five color categories in which each hue takes on different identities depending on whether it is alone or in combination with other colors. The combinations are thus endless and freely customizable.**

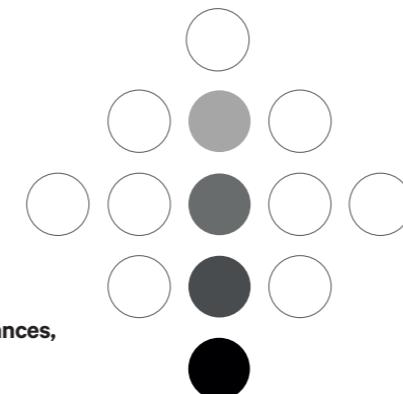

Il sistema Tecno comprende cinque categorie di colori in cui ogni tinta assume identità diverse a seconda che viva sola o in abbinamento ad altri colori. Gli accostamenti sono così infiniti e liberamente personalizzabili.

#### Vibrant colours Vividi

**Timeless, visually striking monochromatic shades with multi-material schemes that give preference to authentic materials and finishes. For high-profile, timeless spaces.**

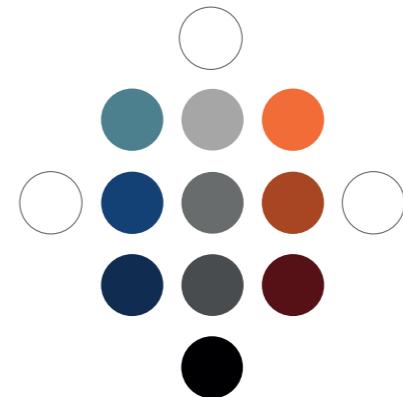

Tinte intramontabili dalla forte identità visiva e nuovi schemi monocromatici e polimaterici che privilegiano le finiture e i materiali veri. Per spazi di alto profilo, senza tempo.

#### Neutral colours Neutri

**Non-colours warm and cold play with shades and nuances, designing neutral spaces conducive to concentration and silence. Places of sophisticated elegance where the absence of colour emphasises the pureness of lines, the tactile richness of materials and the quality of finishes.**

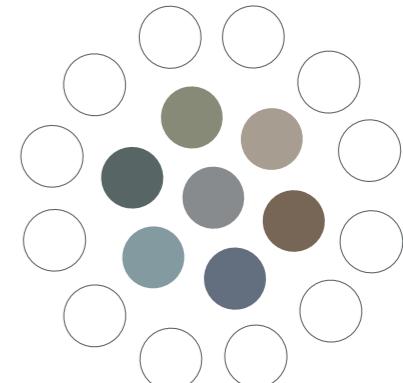

Una serie di colori non-colori caldi e freddi giocano sulle gradazioni e sulle sfumature, disegnando spazi neutri vocati alla concentrazione e al silenzio. Luoghi di sofisticata eleganza dove l'assenza di colore enfatizza la purezza delle linee, la tattilità dei materiali e la qualità delle finiture.

#### Natural colours Naturali

**Natural colours that are “dusty”, desaturated and form close bonds, bringing the outdoors indoors, in harmony with the landscape and the colours of the geographic and cultural setting they relate to. For naturally refined spaces that respect and ideally reflect the places and instances of contemporary living.**

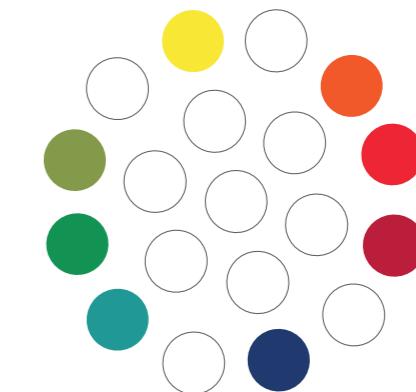

Colori naturali, “polverosi”, desaturati, che si legano tra di loro fondendo l'esterno con l'interno, in armonia con il paesaggio e i colori del contesto geografico e culturale con cui si relazionano. Per ambienti naturalmente raffinati, che rispettano e interpretano al meglio i luoghi e le istanze del vivere contemporaneo.

#### Tonal colours Tonali

**Harmonious, complementary and expressive colors moving in a scale between brighter accents and more intense, elegant hues. Exclusive tones functionally characterizing and defining environments with an emotional value.**

Colori armonici, complementari ed espressivi in scala tra accenti più vivaci e tinte più intense ed eleganti. Toni esclusivi che caratterizzano in modo funzionale percorsi e ambienti con un valore emozionale.

#### Super-saturated colours Supersaturi

**Colour at its maximum power, a vibrant expression of energy charged with emotion. Saturated, prismatic colours for defining innovative and highly characteristic spaces, where products relate also to the colours of led lights.**

Il colore alla sua massima potenza, espressione vibrante di un'energia carica di emozioni. Colori saturi, prismatici, per definire spazi innovativi e molto caratterizzati, dove i prodotti si relazionano anche con i colori delle luci led.
