INTRO

The contemporary ottoman, with a fully reversible backrest.

A seating system with a dynamic character, in which elements with geometric shapes compose an original interplay of soft volumes. A timeless element which goes beyond trends, today it finds its place in lounges, reception and welcoming areas, offices and co-working spaces as well as living rooms.

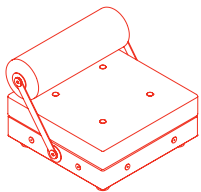

Todo Modo is available in two versions: with or without backrest, and it is possible to match or contrast the colour and upholstery material of the roller with respect to the seat, for endless customisation possibilities.
